Education

Carnegie Mellon University
Bachelor of Science in Information Systems
Additional Major in Human-Computer Interaction
Minor in Computer Science
GPA: 3.76/4.0, class of 2021
Dean's List: 2017-present

Skills

Programming
Ruby, JavaScript, Python, Java, C, C++
Standard ML, R, SQL, HTML, CSS

Tools & Frameworks
Django, Flask, Scikit-learn, Pandas, OpenCV
React.js, React Native, Redux, Node.js, jQuery
Ruby on Rails, MySQL, Firebase, Algolia
Linux, Vim, Git, LaTeX

Product Design
Balsamiq, Sketch, InVision, InDesign

Awards

- GoDaddy Intern Hackathon
  – Best Customer Innovation Hack
- Hack112 – Best OpenCV Hack
- Margaret Williams Mathematics Prize
- Scholastics Art and Writing Award
  – Two Gold & One Silver Keys

Leadership

- Lambda Sigma National Honor Society
  – Vice President
- Idea to Startup – Organizer & Mentor
- Undergraduate Entrepreneurship Association
  – Executive Board Member

Experience

GoDaddy
Software Engineer Intern *Summer 2019*

- Worked as a full-stack software engineer intern for GoDaddy's Presence & Commerce team in Sunnyvale, CA - React, Ruby on Rails, MySQL.
- Implemented shipping features that allow merchants to notify customers when local orders are ready for pickup.
- Redesigned and improved shipping configuration flow for GoDaddy's Online Store users.

Vezzy for Emory
Software Engineer *Summer 2018*

- Led the development of Vezzy, a marketplace app for Emory University with over 1.7k downloads - React Native, Google Firebase, Algolia.

Projects

Cartpal *Spring 2019 - present*

- Designed and developed Cartpal, an iOS app digitizing the brick-and-mortar shopping experience by aggregating user data from shared shopping lists - React Native, Google Firebase.

PyBookLib *Fall 2018*

- Developed a smart book recommendation web app using Flask, Sklearn, and NumPy.

StackJump *Spring 2018*

- Designed and developed a StackJump game using Pygame and Tkinter.

PySnap *Fall 2017*

- Developed a light-weight image processing software with built-in filters using OpenCV, Pillow, and Tkinter.

Teaching

15-110: Principles of Computing
Teaching Assistant *Fall 2018*

- Taught 300+ students Python, programming constructs, data structures, and abstraction in computing.
- Worked closely with Prof. David Kosbie and Prof. Mark Stehlik on team homework and recitation plans.

15-112: Fundamentals of Programming
Peer Tutor *Spring 2018*

- Conducted tutoring sessions on weekly basis to help students with assignments and term projects.
